Here are the same questions, this time in English. You can see if you are able to understand completely what they are asking.

How are you?

Where do you live?

What is your name?

Where are you from?

How did you do? Did you know prior to looking at the English equivalents? You will get to the point where it will be easier for you to understand the words when you look at them in Spanish but for now, it is fine to need to look them up.
