

**First Impressions and Expectations 3-14-09**

Here is where I would answer the questions provided in the prompt. For the first journal, I would comment that I am taking this Spanish course to be an awesome Spanish-speaking doctor with hopes to cure the world of cancer. In my area there are few Spanish speakers but I can watch Spanish-speaking TV shows and read sites or listen to music on the Internet. I have even noticed that some clothing, instruction manuals, and cooking directions are in Spanish.

My expectation for this course is to start off my Spanish education and have fun doing it. I enjoy music and sports and hope to learn a lot about them. I do not like the sound of my voice and am leery of the speaking assignments but really enjoyed the games in this section.

**Careers 3-21-09**

Here is Journal entry 2 where I will discuss and reflect on another topic. I will keep all my entries in one document and will make sure to have the title of the assignment to aid in teacher grading.
