August 2014

Welcome to School Year 2014-2015!

It has been a busy summer for the Virtual School preparing for the migration to Schoology while simultaneously offering our Summer School Program. This year will be an exciting one for DVHS as we prepare for our QAR visit from AdvancED in Spring 2015. Our CSI goals continue to guide our instruction:

Goal #1: All students will improve their writing skills; they will be able to relate, integrate, and synthesize within areas in writing.

Goal #2: All students will increase their ability to interpret (decode, analyze, comprehend) electronic media (digital text) for essential understanding.

We are looking forward to another year collaborating with all of you. Please feel free to contact us about the DoDEA Virtual High School. Have a great year!

Virtual High School Vision:
To prepare our students to live, learn, work, and serve the public good in a digital, global society through engaging, synchronous and asynchronous instruction.

The Department of Defense Education Activity has adopted a new learning management system for School Year 2014-15. Schoolology Enterprise will deliver instructional content to DoDEA K-12 students and allow collaboration inside and outside of the traditional K-12 classroom. The DoDEA Virtual High School will be offering all of its courses through Schoolology.

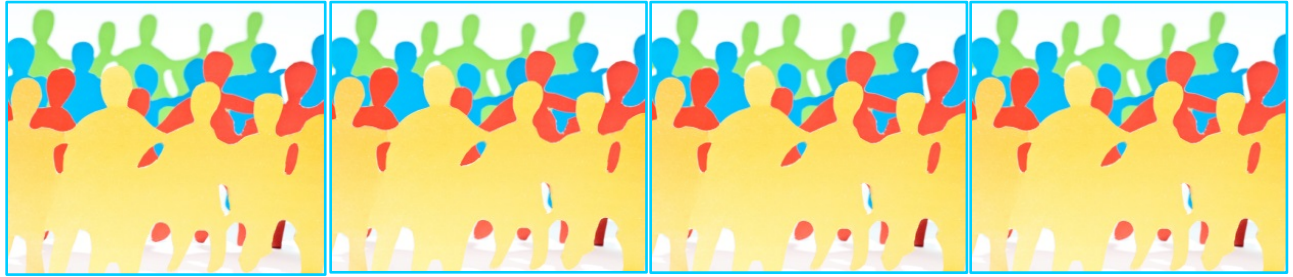

Getting Started in Schoolology: <https://learn.dodea.edu>

- Students must login to Google using their student.dodea.edu accounts in order to use Schoolology.
- Staff with student.dodea.edu Google accounts can login at the same location. If they do not have a google account they must register their account on the learn.dodea.edu portal.
- Once logged into Schoolology, staff will be enrolled in an orientation course; students will also have an orientation course.
- Teachers (or Administration) can create courses and enroll students for their school using the learning portal. ([Printable Guide](#))
- Administration should not enroll themselves in courses. They should use the advisor role to view any students or courses. Only teachers and students should be in the members list. ([Printable Guide](#))
